WORK EXPERIENCE

Jumpcloud   May. 2021 – Jan. 2023
Software Engineer   *Fully Remote*
- Worked on various projects ranging from component creation & refactoring, test suite creation & refactoring, documentation creation, assisting QA, and project lead responsibilities (info gathering, ticket creation, etc.).
- Refamiliarized myself with Git, JIRA, and Agile practices while learning Vue / React patterns along with Node.js / Docker processes. Performed multiple Spikes which reached across teams and departments to assist team objectives.

BIS Global / CharityEngine   Feb. 2020 – Feb. 2021
Front End Developer   *Tysons, VA*
- Worked on high profile client sites and forms, maintaining & improving aging infrastructure for forms & consumer facing sites which handled tens-of-thousands of donations, which generated tens of millions of dollars.
- Assisted in continued efforts to improve the function and design of the webapp: CharityEngine.

Grafik   April 2018 – August 2019
Front End Developer   *Alexandria, VA*
- Performed Wordpress development using ACF to create custom components, update legacy components, and maintain WCAG AA compliance across all projects.
- Prototyped and developed finalized front-ends for various Pimcore projects.

FightMetric / UFC   June 2017 – March 2018
Full Stack Developer   *Washington, D.C.*
- Built, tested, and deployed site designs from provided design mockups. Created or worked on import applications. Sites worked on include GUI's for the World Surf League, Drone Racing League, and UFC.
- Traveled the world to train clientele in new software suites, breaching language barriers and adhering to strict travel schedules. Made in-field edits to relevant webapps based on feedback given by product consumers.
